INTERNATIONAL SURVEY INC.

VISION

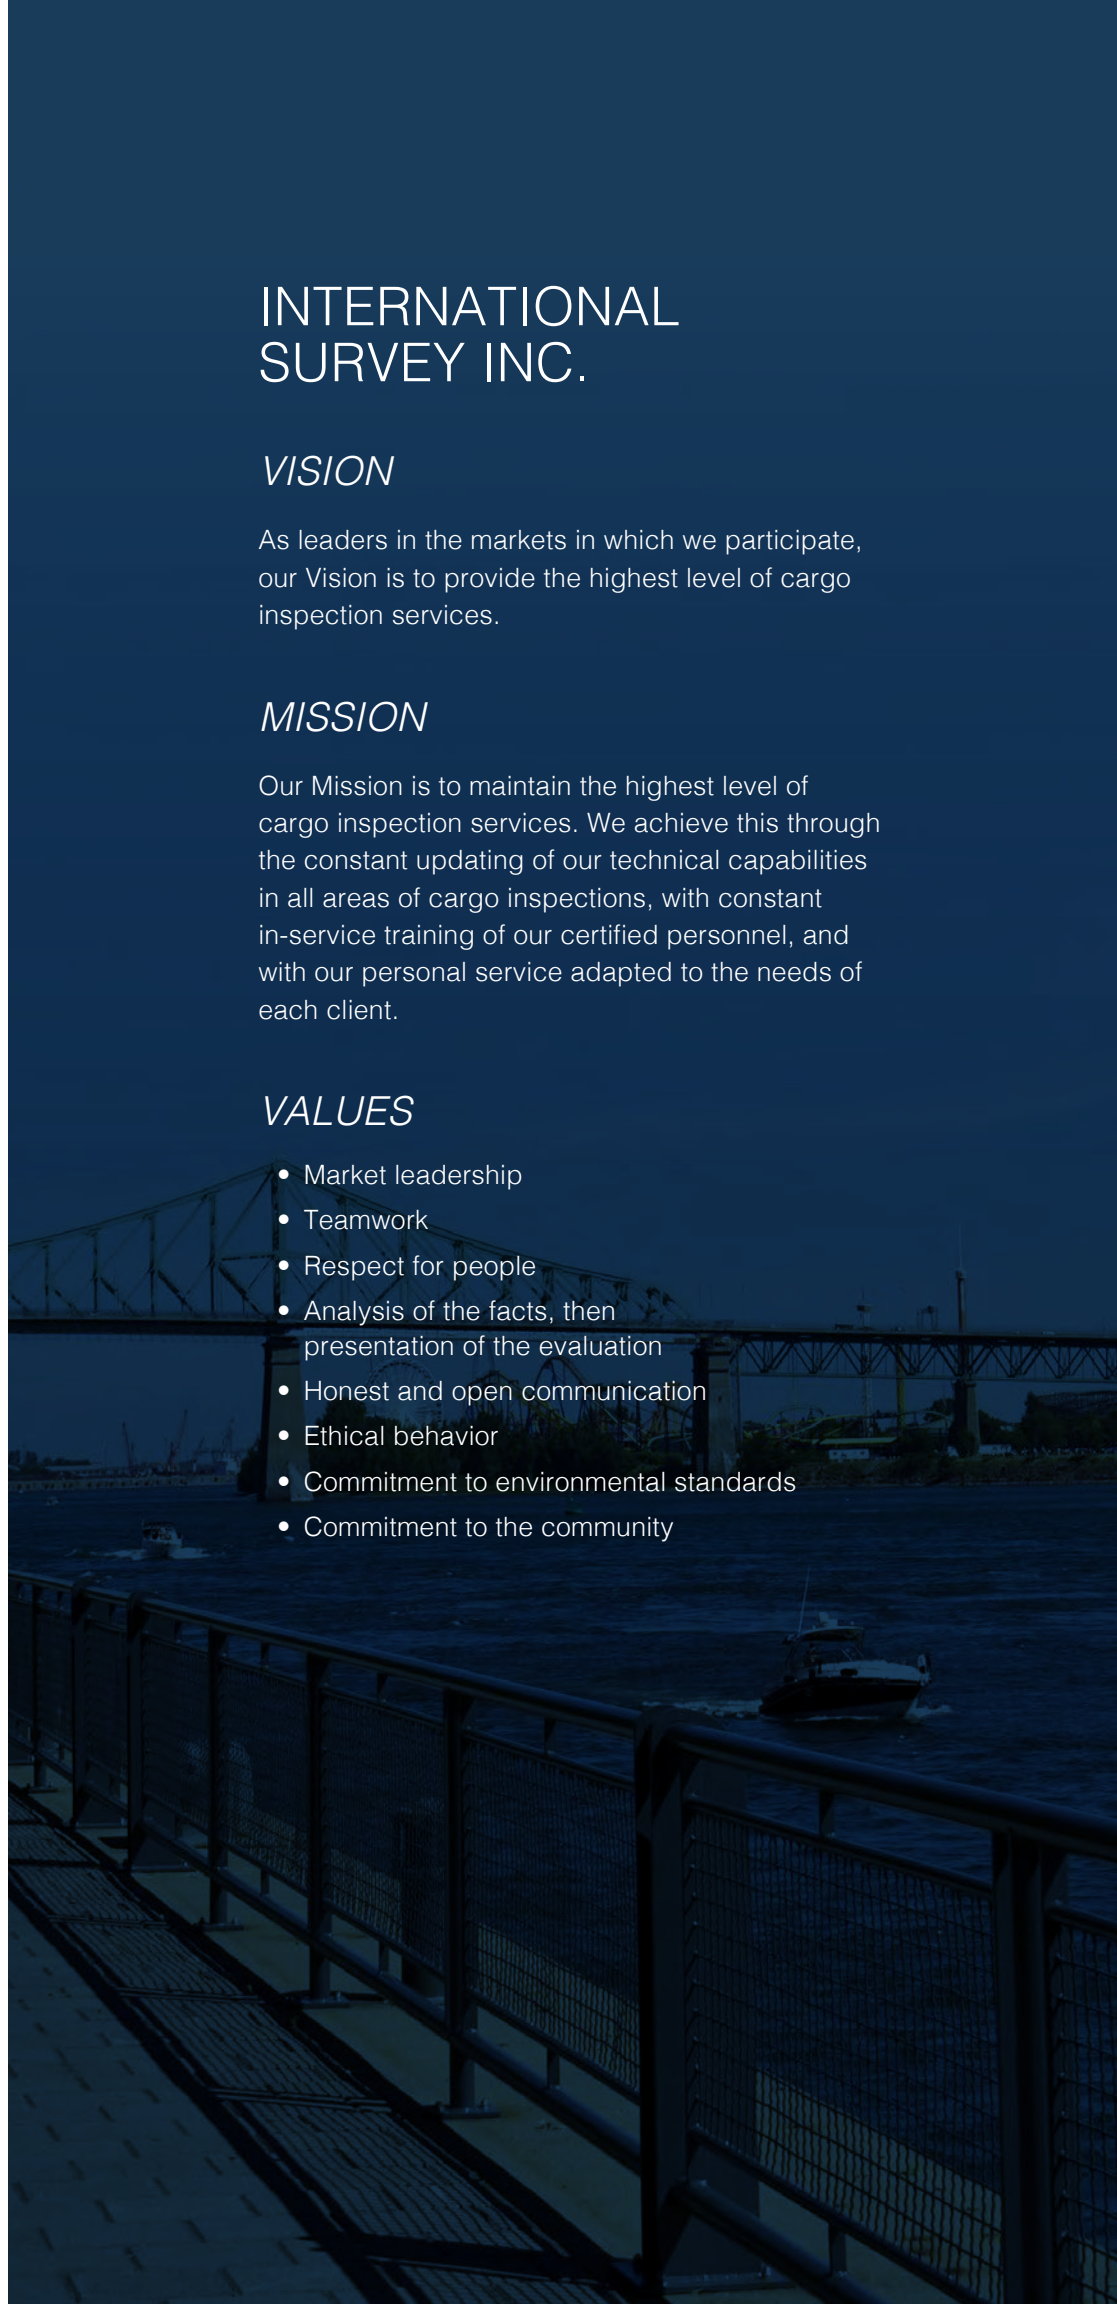

As leaders in the markets in which we participate, our Vision is to provide the highest level of cargo inspection services.

MISSION

Our Mission is to maintain the highest level of cargo inspection services. We achieve this through the constant updating of our technical capabilities in all areas of cargo inspections, with constant in-service training of our certified personnel, and with our personal service adapted to the needs of each client.

VALUES

- Market leadership
- Teamwork
- Respect for people
- Analysis of the facts, then presentation of the evaluation
- Honest and open communication
- Ethical behavior
- Commitment to environmental standards
- Commitment to the community

HISTORY

International Survey Inc was created in 2004 in Montreal, Quebec, Canada due to the need to expand the market coverage of the cargo inspection services offered by our parent company, Quality Control Survey. The parent company, founded in Central America in 1996, provides general cargo inspection services in Central America and is an expert in its field. Its commitment is to carry out all tasks at the highest professional level.

Over the last 20 years, the parent company provided cargo inspection services to dozens of oil tankers and to cargo shippers with shipments of various types. These shipments include grain, oils, liquid grease products, tallow, metal coils, chemicals, petroleum and hydrocarbon products, and general merchandise. The parent company worked and collaborated with very large companies like Exxon Mobil, Shell, Texaco, Sucden Americas Corporation, V & A Commodity Traders and many other national and international companies.

International Survey Inc, through its connection with our parent company Quality Control Survey Company, has access to certified and responsible survey personnel, many with over 30 years of expertise in the field of cargo inspections.

The operating team of International Survey Inc is certified by internationally recognized organizations such as the International Federation of Inspection Agencies (IFIA) and the Energy Institute. Our staff is tri-lingual: English, French and Spanish.

Through the work of our founders and our permanent salaried staff, International Survey Inc achieved a high level of both theoretical and technical knowledge that guarantees performance excellence in the execution of the various tasks.

INTERNATIONAL COVERAGE

Port of Odessa, Ukraine

Port of Montreal, Canada

Singapore Cargo Terminal, Singapore

Puerto Quetzal, Guatemala

Shanghai East Bay Pier, China

Port of Newcastle, Australia

Port in Hong Kong

The connection between our parent company and INTERNATIONAL SURVEY INC, built on a solid base of knowledge and experience, provides INTERNATIONAL SURVEY INC with the perfect tools to offer both excellent services and international coverage to our clients.

INTERNATIONAL SURVEY INC offers our services to our clients on all continents: North America, South America, Europe, Africa, Asia, Australia and Antarctica.

MAP OF OUR INTERNATIONAL COVERAGE

Our primary area of focus is North, Central and South America. For example, from our point of inspection in **Central America** and for the seven countries: Guatemala, El Salvador, Honduras, Nicaragua, Costa Rica, Belize and Panama, we offer our services as follows:

From	To	Pre-Shipment Inspection	Post Shipment Inspection	Point of Inspection
Central America	Central America	yes	yes	Central America
International	Central America	no	yes	Central America
Central America	International	yes	no	Central America

For example, from our point of inspection in Canada, we offer our services as follows:

 Canada	International	yes	yes	Canada
 International	Canada	yes	yes	Canada

We offer our inspection services to companies located on the other continents. Certain conditions apply.
